

We ♥ (digital) sustainability : open-source

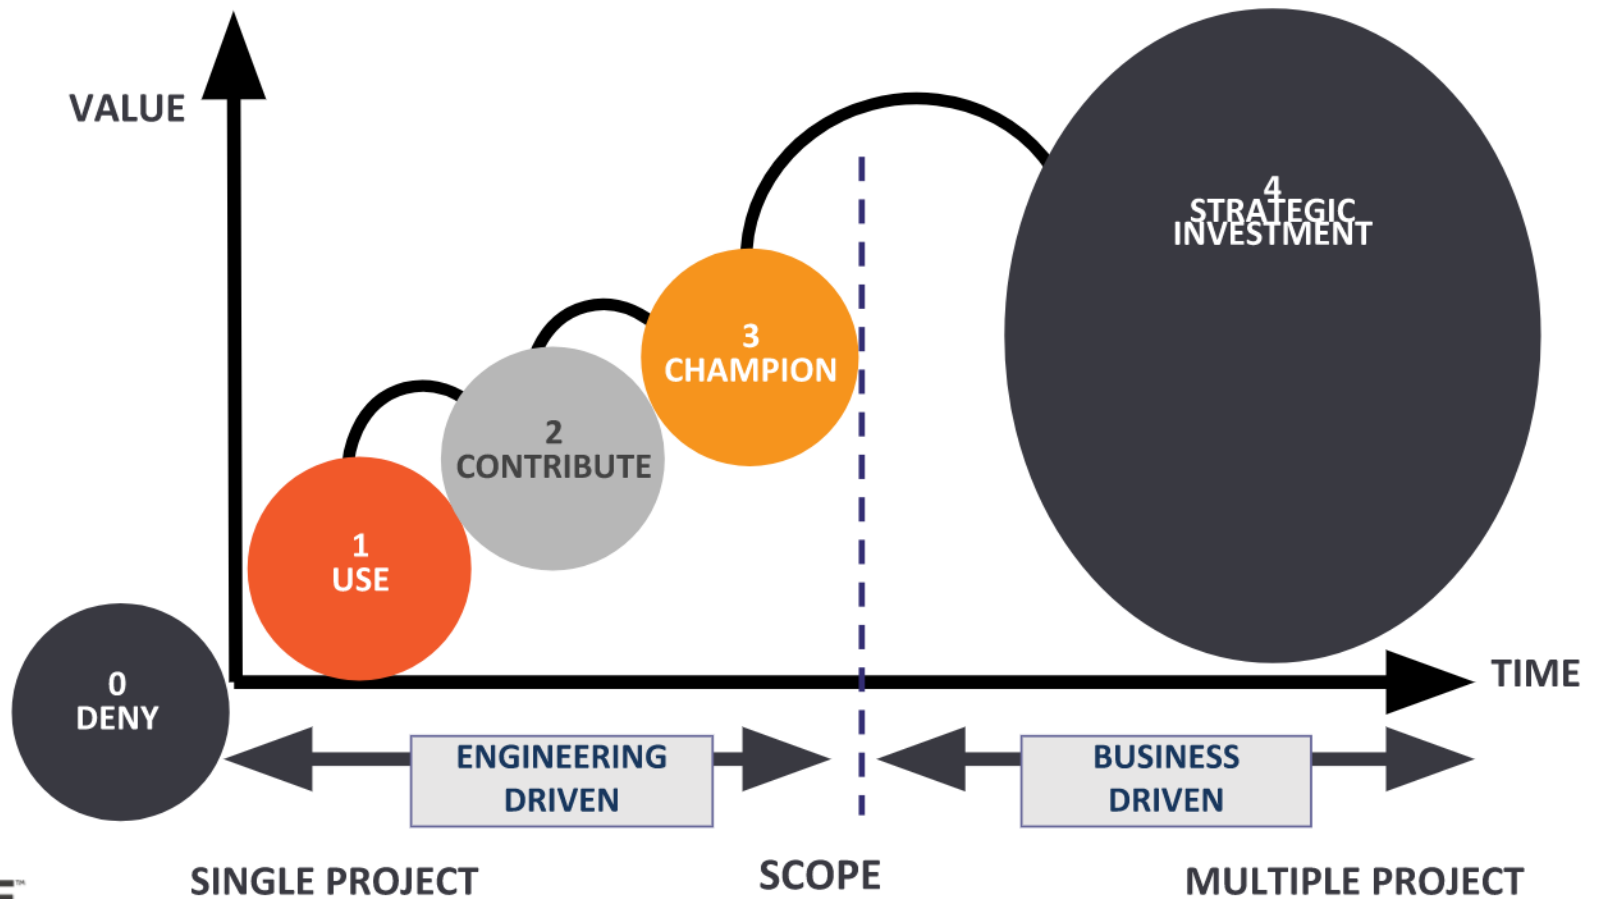

@MarkusTiede (Du!?) 🧑🏻💻 Digital Sustainability Lab

Board member @ CH Open + OK @ DINAcon

LEVEL 0 - 3

❤️ <https://github.com/baloise/open-source> ★

100++ people & repos in > 9y+

<https://ossbenchmark.com>

<https://oss-studie.ch>

<https://www.ossdirectory.com>

WHY?

1. use: "best-of-breed" approach

based on open-source ecosystems

"true" evolution & "On the Origin of Species"

2. learn: "[...] mess with the best [...]"

1. USE

make or buy? take!

explicit and impli(Ϸ)it

STRATEGIC: BUY & TAKE

operating system, container, automation, middleware

redhat®

RHEL(inux), OpenShift, Ansible, JBoss, ...

impli(c)it use

BOM for Guidewire SDKs: $\sim 750/1200 = 60+\%$

average ratio: $\sim 80 - 90\%$ open source components

2. CONTRIBUTE

(bug) reports, fixes, documentation, examples

intrinsic learn of **best practices** for open collaboration

SPONSORING

Craig Dunn - (Jerakia &) [firewalld](#): 10k+ downloads -
used [@CERN](#)

[Die Mobiliar & Baloise Group & Puzzle ITC GmbH](#) -
[Liima](#): middleware automation

3. CHAMPION

being consumed / used

single project / regional

share costs + gain trust, reputation and visibility

since 2013: 100+ repos, 4 plugins with total ~47.000 installations on Eclipse and [Atlassian marketplace](#)

100+ people [from Baloise Group](#)

10+ external contributors from Germany, Austria, California, Memphis, Tokyo

[workshops](#), talks, APIs, POCs, ...

HOW?

PRINCIPLES

trust over control

time over money

intrinsic over extrinsic

CONTAINER

daily work & duty

open-source thursday

other CoPs

NOW

deny  SOON use (compliant) & contribute

champion?
